

A first time home buyer with a totally empty space supplied photos and dimensions of his condo. He wanted to do the work, he asked us to tell him what to do.

Just what we like.

We provided a floor plan and renderings for the space, along with

recommendations for paint, lighting, rug, furniture and accessories. The color and furniture selection was based on the client's request for an urban minimalist vibe and items that could be ordered on-line.

Specified pieces were available through sources that included crateandbarrel.com, cb2.com, shadesoflight.com, westelm.com and target.com.
